

# Dermacyn™ Wound Care

Dermacyn™ Wound Care is a super-oxidized solution intended for use in the debridement, irrigation and moistening of acute and chronic wounds, ulcers, cuts, abrasions and burns. Through reducing the microbial load and assisting in creating a moist environment, it enables the body to perform its own healing process.

Dermacyn™ Wound Care can be broadly applied within a comprehensive wound treatment.

- **SAFE:** Does not damage tissue and is non-toxic and non-irritating to human skin, eyes or throat.
- **READY TO USE:** No mixing or dilution required.
- **STABLE:** Dermacyn™ Wound Care has a one-year shelf life.
- **pH NEUTRAL:** pH from 6,2 to 7,8.
- **ENVIRONMENTALLY SAFE:** No special disposal precautions required.
- **MULTI PURPOSE:** Can be used within a comprehensive wound treatment.

**Case studies**

Studies have been conducted with Dermacyn™ Wound Care in a variety of comprehensive wound management programs with positive results including diabetic foot ulcers, varicose vein ulcers, peritonitis and burns

**Clinical research**

Clinical studies have been presented at various worldwide medical conferences including the DGfW European Wound Healing, Texas Surgical Society and Diabetic Foot Study Group.

**Diabetic foot treatment**

**Varicose vein leg ulcer treatment**

**Burn treatment**
